Comments

10. Aspects of the class which you liked and those which you think need improvement:

I liked the amount of knowledge I gained.
It was challenging, but maybe too much for just 3 credits. I didn't have time for other classes.
Presentation was very clear - right up to classes. Classes could be presented in a manner that we get more time using them to better understand them.
Fellow students were willing to help each other.

11. The extent to which lecturer was responsible to the class (e.g. punctual, held class for full scheduled time, returned graded work promptly, made up canceled classes):

He was very responsible.
Mr. Laurie made sure to make up missed class days.

12. Participation of students is an integral part of the learning process. Briefly comment on the student participation in this class (e.g. completed reading prior to class, turned in assignments on time, carried their "load" in class activities and group projects):

We needed to put a lot of extra work into the class.
Many silent, but when someone spoke up, it was constructive and helpful.

13. Other comments:

Mr. Laurie is a great teacher!
