Comments

10. Aspects of the class which you liked and those which you think need improvement:

I liked all of it.
 None
 Less PowerPoint Slides.
 Liked project wish they were more involved.
 The class should be more hands on. It was mostly terminology.
 More board work and less slide presentation.
 Mr. Laurie was helpful and had used PowerPoint presentations that he made to help the class.

11. The extent to which lecturer was responsible to the class (e.g. punctual, held class for full scheduled time, returned graded work promptly, made up canceled classes):

Excellent teacher.
 Flawless
 Always on time.
 Good
 I agree with the above.
 Always on time, made up cancelled classes and tried to get the students to work together in teams.
 He taught well.

12. Participation of students is an integral part of the learning process. Briefly comment on the student participation in this class (e.g. completed reading prior to class, turned in assignments on time, carried their "load" in class activities and group projects):

Seemed we all partook into the class and gave presentations too.
 We did group project which got everyone involved.

We all did a presentation for class.

Had fun doing team projects.

Good participation.

We the students were given three projects to work on as a team and this really helped us work together.

Students were able to download PowerPoint slides from Mr Laurie's web page to help study.
