## Course - Program Comparison

Course: IFSM 300 Section: A342

### Strong Features

assignments were very useful in learning about Excel and Access

Course are very valuable in our current growing information technology.

Every students and a teacher were very friendly.

Learning about technology was very beneficial and I will be using what I have learned outside of school.

### Improve/Recommend

I didn't have an access soft in my computer. So it wsa very inconvenient in the course.

Keep it going and allow more students to learn from it!

Lectures mostly consisted of reading directly from slides or watching videos. These mediums rarely engage students. The professor should teach from personal experience
